Date Sept 2025

Commitment to Science Based Targets

At Triwes we are dedicated to sustainability and recognize the importance of taking proactive measures to protect the environment.

Our current scope 1, scope 2 emissions footprint, measured in 2024 is extremely small due to the measures we have taken to reduce our emissions including sourcing green energy.

We are committed to maintaining or improving this minimal scope 1,2 profile by 2029

Sincerely,

André J. Wießmann

Managing Partner
